GATE INFORMATION

RE : Unit #

Dear Renter:

We have installed an electronic gate at our Mini Storage site. You will need a code to open the gate.

Our gate will be closed at all times. Our customers may enter with an entry code during the hours of 6 a.m. to 10 p.m. After 10 p.m., the gate will lock and you will not be granted access.

This will allow our customers and managers to be the only people allowed to enter our Mini Storage property.

If you do not have your code, you will not be granted access and the gate will not open.

To enter the gate – simply enter your 4 digit entry code.

Your entry code is:

The keypad will tell you “Access Granted”, and the gate will open. You will then drive your vehicle into the mini storage property and after 1 minute the gate will close behind you.

When you go to leave the mini storage (from inside the gate), and the gate is already closed, drive up close to the gate and within 20 seconds, the gate will open. It will automatically close behind you.

Please keep this code in a safe place for your future reference.

If you misplace, forget your entry code, or you wish to change your entry code, you may call our manager, Erika, and she will help you.

Feel free to call with any questions.

Thank you.

Sincerely,

/Thane/
